

CGC - Roundabouts for Digital Transformation (CGC-DigiTrans) - Professional Guidance & Counseling (CGC) in Multi-Actor-Networks

The aim of the project is to develop an innovative counseling method, the "CGC Roundabouts for Digital Transformation", through which Career Guidance and Counselling (CGC) practitioners can improve guidance and counseling in the context of digital transformation.

Results:

Report on Digital Skills and Glossary

Handbook about an innovative "roundabout guidance method"

Case Studies about the use of the method in practice

Curriculum for the training of practitioners for career guidance and counselling (CGC) to support the digital transformation

Evaluation Report of the pilot based on interviews, qualitative feedback and quantitative questionnaire

All project results can be used in the academic and non-academic training of CGC practitioners and in their practice. Our aim is to achieve greater impact in supporting digital transformation in our society.

Target Groups:

- Higher Education Institutions
- CGC practitioners, academic counsellors, coaches and learning facilitators
- Students, scholars and trainers in (T)VET sector, counsellors, and coaches in public or private services play a key role for the implementation of the project and its results
